New York, NY

## **EDUCATION**

### **New York University – Tandon School of Engineering**

Cybersecurity Master's Program

Cumulative GPA – 3.89

*ASPIRE Scholarship Recipient (SFS CyberCorps)*

**Brooklyn, NY**

May 2023

### **Fordham University - Bachelor of Science**

Major - Computer Science

Minor - Cybersecurity

**Bronx, NY**

May 2021

### **Pelham Memorial High School '17**

*Regents Diploma, Advanced Designation*

**Pelham, NY**

June 2017

## **Relevant Course Work**

- Cybersecurity and Applications, Secure Cyber Networks, Data Communication and Networking, Forensic Computing, Cyberspace: Issues and Ethics, Computer Science I and II (C++), Theory of Computation, Computer Algorithms, Web Development, Database Systems, Operating Systems, Info & Data Management, Software Engineering

**Bronx, NY**

Sept. 2017 - May 2021

## **Cybersecurity Software Tools Experience**

- Splunk Fundamentals, Lansweeper, Wireshark, Burp Suite, Bettercap, Nmap, Kali Linux, Metasploit, tcpdump, edb-debugger

**New York, NY**

Aug. 2017 - March 2022

## **CVE PUBLICATION**

I found a vulnerability in the Learning Management System, Blackboard. I completed a write-up about the issue and followed the necessary steps in having it published by MITRE and NIST. It was given the enumeration: CVE-2020-9008. The publication can be found at <https://nvd.nist.gov/vuln/detail/CVE-2020-9008> and the write-up is located at <https://www.kyles.world/cves>.

## **Programming Experience**

I have been programming for my required classes at school and continue to program on my own as a hobby. All of my works/projects can be found at <https://www.kyles.world/projects>.

## **WORK AND LEADERSHIP EXPERIENCE**

**Sandia National Laboratories**  
*TITANS Cybersecurity Intern*

**Albuquerque, NM**  
May – August 2022

**Simulmedia Inc**  
*DevOps Intern*

**Manhattan, NY**  
June – July 2021

- Created a Slack bot that alerts on OpenVPN errors or security issues / events. Written in Python3 and uses a custom algorithm for finding live updates in a sqlite database and preventing duplicates. Also sends user metrics and alerts to Datadog. Uses sqlite3, datadog, and webhooks
- Created a date parser in Python3 using the re and datetime libraries. Handles multiple date formats from Unix date timestamps to full month and day names. Returns a datetime object in ISO-8601 standard
- Improved a Python script that is used to collect the metrics of a service that are then sent to Datadog
- Security Testing / Pentesting - Testing and dissecting different routes of microservices and gateways using tools like Burp Suite in order to discover potential security vulnerabilities
- Researched and implemented Multi-Factor Authentication for OpenVPN Access Server
- Researched, compared, and presented findings on potential use of High-Availability, Logging, Metrics, and SSO/SAML in OpenVPN, Wireguard, and in AWS Client VPN
- Apart of Sprint Reviews every week
- End-of-internship presentation for a company audience of 100+
- Tools / Technologies Used: Git (GitHub), AWS CLI, AWS Linux 2, Python3, Clubhouse.io, Datadog, AWS EC2 / ECS, AWS IAM, cron / crontab, syslog, AWS Client VPN, json, webhooks, curl, Burp Suite, SQL, Jenkins, Viscosity, LDAP, SSO (OneLogin)

**Decipher Technology Studios (greymatter.io)**  
*DevOps Security Intern*

**Alexandria, VA**  
May – August 2020

- Implemented the use of Open Policy Agent into a service mesh infrastructure in order to help protect sensitive information and Restful API endpoints
- Designed and wrote policies in the Rego programming language for Open Policy Agent
- Applied the FIPS 140-2 encryption standard to a service mesh built on top of Envoy proxy to ensure FIPS compliance
- Wrote a small Kubernetes config sanitizer in GoLang for security purposes
- Completed official documentation for projects in Markdown using GitBooks
- Presented work in several product review meetings (SCRUM Meetings – Agile Development)
- Used Throughout Internship: Docker, Kubernetes, Envoy Proxy, Git, Bazel, k3d, CircleCI, Helm Charts, Curl, Linux Command Line

**Pico Quantitative Trading LLC**  
*Information Security Team Intern*

**Chicago, IL**  
July 2019

- Created Company Information Security policies including Bluetooth device security and Virtual Machine policies
- Created reports for data collection and organization in Lansweeper by writing SQL scripts that search and organize host information across several Pico networks
- Used PowerShell scripts to streamline network tasks
- Performed GRC Incident and InfoSec compliance work

- Used Microsoft Excel (Pivot Tables) to log Security Incident Reports back to 2016 up until 2019, organized and compiled statistics on elements such as: *Risk Type*, *Severity*, and *Affected Parties*
- Compiled data into a readable summary in Microsoft PowerPoint to represent crucial data trends for Information Security Reports used by the InfoSec team
- Studied SANS institute InfoSec Policies
- Utilized Microsoft Visio to create detailed virtual schematic models of different networks and devices operated by Pico

**Elevated Computing**  
*Information Technology Intern*

**Manhattan, NY**  
July – August 2014

- Undertook computer science research related to networks and communications
- Responsible for server management and creation of Linux server (Cent OS)
- Utilized Nagios XI to monitor health of client networks/servers
- Provided IT support to client's employees, including both phone and remote desktop support

**Department of Immunology & Microbiology, New York Medical College**  
*Research Assistant*

**Valhalla, NY**  
July – August 2015

- Performed bench research related to DNA toxoplasmosis parasite known as *T. Gondii*
- Used methods such as Polymerase Chain Reaction and Gel Electrophoresis
- Attended a conference related to research
- Drafted research paper summarizing research results

**Fordham Preparatory School**  
*Assistant Rowing Coach*

**New Rochelle, NY**  
May – August 2018

- Driving students to and from the Fordham Prep campus, boathouse, and New Rochelle train station in a Fordham Prep bus
- Driving boat launch alongside rowers whilst coaching
- Working with 50+ student athletes to ensure safety and proactivity
- Responsible for organizing and maintaining rowing equipment
- Created lineups for Freshman, JV, and Varsity sweeping and sculling boats

**VIP Beach Club**  
*Front Gate Security*

**New Rochelle, NY**  
May – August 2017 & 2018

- Signing in club guests and checking identification
- Charging guests at the register in order to add funds to their respective accounts
- Working with management and guests directly in order to ensure quality of life at the club
- Guest-Club relations

**Huguenot Memorial Youth Group**  
*Mission Trip Member*

**Pelham, NY**  
July 2015 & 2016

- Organized a Spanish class in June of 2015 for participants in an upcoming volunteerism trip to Nindiri, Nicaragua
- Traveled to Nindiri in July 2015 & 2016 to build homes for impoverished local Nindiri families

## **College Activities and Affiliations**

### ***Computer Science Society:***

**Active Member** since February 2019

Robotic building with Arduino boards

**Presented** in student-run Cybersecurity presentation

### ***Fordham Men's Rowing Team:***

Rowing every season since Freshman year

**Gold Medals** at Metropolitan Regatta (2017, 2018, 2019)

**Bronze Medal** at Head of the Housatonic (2017)

Experience rowing collegiate Pair, Double, Four, and Eight Boat

## **Personal Interests**

- Studying & Speaking Russian Language
- Computer Programming: <https://www.kyles.world/projects>
  - Python, C++, JavaScript, Bash, HTML/CSS
- Crew (Rowing): 9 years
- Soldering & Arduino
- Skiing & Snowboarding
- Hiking, Outdoors, Camping
